Business Description and Key Statistics

Quantum Blockchain Technologies plc is a United Kingdom-based investment company. The Company is focused on technology related investments, with special regard to quantum computing, blockchain, cryptocurrencies and artificial intelligence (AI) sectors. The Company has commenced a research and development (R&D), and investment program in blockchain technology, which includes cryptocurrency mining, and other advanced blockchain applications. The Company has developed Bitcoin (BTC) mining strategy, called Method A and Method B. Method A is available as a software as a service (SaaS) client-server cloud application by uploading an upgrade to the mining rigs' firmware. The Company servers, where the Method A engine runs, receive data from the mining rig, the client, responding with parameters at the beginning of each new block computation. Method B is available as a SaaS client-server cloud application via a module upgrade to uploading an upgrade to the mining rigs' firmware.
